

LEONARDO SERRÃO MUNARETTO

Web Developer

I really enjoy transforming code into functional, responsive Apps and Pages that deliver the best experience to the final user. Forever a student, always searching about the best technologies and how to take the best out of them.

EXPERIENCE

Trainee

Tata Consultancy Services - 12/2022 to Current

- Remote Support Annalist for Exelon systems, an energy company from United States
- I work directly with the final user, assisting with all kinds of issues on the system, from password resets to applications functionality issues
- Support made 100% in English, talking to native speakers and foreigners (Indians, Chinese, etc) on a daily basis

Internship

Tata Consultancy Services - 06/2022 a 12/2023

- Finished a lot of trainings during this period
- We developed a complete application with Back-end, Database and Front-end, in which I was the technical leader of my group's Front-end team. We used ReactJS + TypeScript + NextJS

HABILITIES

Programming languages
