- ●●●● Proactivity
- ●●●● Time Management
- ●●●● Flexibility

PERSONAL PROFILE

I really enjoy transforming code into functional, responsive Apps and Pages , that deliver the best experience to the final user. Eternal student, always searching about the best technologies and how to take the best out of them.

ACADEMIC HISTORY

UNOPAR - Universidade Norte do Paraná
In progress

- Analysis and Systems Development

ETEC Profª Marinês Teodoro de Freitas Almeida
High School with Informatics Tecnitian Integrated | 2014 Jun - 2016 Dec

- I studied standard high school subjects along with computer subjects like Systems Analysis, Web Programming and Databases.

RocketSeat
Ignite

- Study of technologies for web development, such as ReactJS, Styled-Components, TypeScript and learning to work with code reuse and componentization.

EXPERIENCE

Finances Management System
https://github.com/leo-serrao/finances-management-reactjs

- Project made in ReactJS of a financial management system using important concepts such as useState, useEffect, useForm, API consumption with Axios, creation of contexts with useContext and creation of custom hooks.
